D.TEJA ESWARA REDDY

Course : **B.Tech**, Computer Science & Engineering, 2021
Email : 190030412cse@gmail.com
Mobile : 7674916376
CGPA : 9.44

ACADEMIC DETAILS

COURSE	SPECIALIZATION	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
CLASS XII	SCIENCE	NARAYANA JUNIOUR SCHOOL	Andhra Pradesh Board of Intermediate Education (BIEAP)	9.55 CGPA	2019
CLASS X		NARAYANA E-TECHNO SCHOOL	Andhra Pradesh Board of Secondary Education (BSEAP)	9.2 CGPA	2017

Subjects / Electives	
Technical Proficiency	Angular, Computer Networking, C++ Language, C Programming, Java, Data Visualization, DBMS, Data Science, Java Database Connectivity (JDBC), Technical Knowledge & Skills, Python3, Data Structures, Django

SUMMER INTERNSHIP / WORK EXPERIENCE

intern, The Sparks Foundation   Jul 2021 - Aug 2021
I worked as a web developer on basic banking crud operation, with python(Django) as front end and sqlite as backend

Intern, Avishkaar   Jun 2021 - Jul 2021
Intern as a data science and analytics,that was quite good experience as a beginner,worked on educational data to draw some insights the percentage on the students joining to a particular colleage or university

CERTIFICATIONS

CERTIFICATION	CERTIFYING AUTHORITY	DESCRIPTION
AZ-204: Developing Solutions for Microsoft Azure	Microsoft	Microsoft az:204 is the 2 level certification given by Microsoft for those who want to upskill their knowledge on the latest cloud computing world especially those who had an interest in the Azure cloud platform
Multi-Cloud Network Associate Certificate	AVIATRIX	this is a muti cloud certification course that was offered by the university, that covers the intermediate level of the cloud details. The ACE certification is designed for individuals who already understand basic networking concepts and prepares engineers and operations staff with the 1.working knowledge of native networking constructs in AWS, Azure, Google Cloud, and Oracle Cloud Infrastructure and (2. proficiency to build use cases and multi-cloud architectures using the Aviatrix cloud network platform.
Database systems Specialization	Coursera	This specialized program is aimed at computer people who want to enter the field of information systems and learn their different types of requirements, architectures, performance, techniques and tools so you can know when to use business intelligence, data mining, data science, databases , databases in memory or big data in order to have reliable, maintainable and scalable data intensive systems. Through 4 courses, you will cover [transactional relational databases, business intelligence and Data warehousing, NoSQL technologies, and reliable, scalable and maintainable data intensive applications that will prepare you for a specialized information system consultant or data scientist.
Java (Basic) Certificate	HACKERRANK	It will cover basic topics in Java language such as classes, data structures, inheritance, exception handling, etc. You are expected to be proficient in either Java 7 or Java 8.
Problem Solving (Basic) Certificate	HACKERRANK	It covers basic topics of Data Structures (such as Arrays, Strings) and Algorithms (such as Sorting and Searching).

PROJECTS

ONLINE FOOD ORDERING SYSTEM - python-Django framework,sqlite as database   Jan 2021 - May 2021
The Food Order System is an E-commerce web application developed using Django Framework. It contains features such as login/signup, views all food items, add food items to card and finally checkout using payment systems.
1. we have used the default database as sqlite for storing the data of users, food items.
2.we create a superuser as admin who can add resturents,food items etc

Bouquet Store - java using JDBC,JSPand MAVEN   Jan 2021 - May 2021

In this project we try to implement an online ecommerce website that should,that should perform the basic CRUD operations, and that should provide a option for admin and users seperately

Banking - Angular,MongoDB   Jul 2020 - Nov 2020

we formed a group of three and start working on the application,
we try to create our own insights and prototype for our model, and then we implemented it with Angular as the Framework with MongoDB as backend,for validation we have used JavaScript,

POSITION OF RESPONSIBILITY

RPA - ROBOTIC PROCESS AUTOMATION   Jan 2021 - Present

I am one of the members of RPA group where we built bots for our daily purposes that can help to do our tasks fast using the AUTOMATION ANYWHERE TOOL

COMPETITIONS

FaceBook HackerCup   Sep, 2021

Hacker Cup is Facebook's annual open programming competition. Open to participants around the world, where we apply problem-solving and algorithmic coding skills to advance through each year's online rounds.

PUBLICATIONS

Detailed Field Study on FOOD ORDERING SYSTEM   Journal name: LinkedIn | Publication date: Feb 14, 2021

we conducted a field study on online food ordering systems. where we have visited different restaurants and how they are interconnected with famous food partners such as zomato,swiggy etc.what kind of business login they follow with these companies. we have drawn some insights which have help for our semester project.

VOLUNTEER EXPERIENCE

GOOGLE CLOUD - Role: Developer Student Clubs | Cause: Education   Sep 2021 - Present

Developer Student Clubs are university-based community groups for students interested in Google developer technologies. By joining a DSC, students grow their knowledge in a peer-to-peer learning environment and build solutions for local businesses and their communities.
